

SAFETY RECALL NOTICE NUMBER 110001 (NHTSA RECALL NOTICE 10V-619)

January 31, 2011

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Genie Industries, Inc. ("Genie") has decided that a defect which relates to motor vehicle safety exists on certain boom and chassis components on our TZ-50 trailer mounted aerial work platform booms.

The reason for this recall...

Genie Industries has discovered that a supplier has introduced a different material to their manufacturing process for these components. This material is not in compliance with Genie's specifications. The use of this non-compliant material, in the boom and chassis components, could result in cracking in the supporting structure. **Cracking in these supporting structures could result in the platform falling, increasing the risk of injuries and/or a vehicle crash.**

This recall applies to all North American TZ-50 trailer mounted booms from serial number TZ5010-143 to TZ5010-167.

What we are asking you to do...

Genie has determined that the nature and complexity of the work to be performed requires special training, tooling and fixtures that are not available at our dealers. As a result, Genie will be contacting dealers and machine owners to arrange for the work to be done at a specified Genie facility. The work, including transportation, will be coordinated and supplied by Genie logistics.

Enclosed is a list of machines shipped to your location per Genie's records. Using this list, please confirm that all machines sent to your location are accounted for. Verification of the model, serial number and model year can be found on the machine serial plate.

1. Locate all machines within the serial number ranges above.
2. Fill out the enclosed TZ-50 Work Order Form and fax or e-mail to Genie's Service Department. A Genie representative will be contacting you for further instructions.

The completed "Work Order Form" must be returned to Genie as soon as possible.

3. Sign the completion form provided by the Genie Service representative to verify that this campaign bulletin has been completed.

Warranty:

Because Genie is performing the work required by this campaign, we do not anticipate that any warranty claim will need to be submitted in order to document its completion. Warranty claims should not be necessary.

Genie and ANSI requires that the seller of a Genie machine report to Genie the model and serial number of each machine sold, as well as the name, address, and telephone number of the new owner, within 60 days of the sale. OSHA and ANSI also require that the manufacturer's safety recall notice be completed. It is your responsibility to communicate this important information to all machine owners and applicable branches. If you require additional copies of this safety recall notice or have any questions, please contact Genie's service department at (800) – 536 -1800.

If you are the lessor of any of the affected vehicles ...

If you are the lessor of this vehicle, federal law requires you to forward this notice to the lessee within ten days of your receipt of this letter.

If you need help...

If you have questions or concerns regarding this recall, please contact Genie or the service manager at your local dealer. If Genie or your dealer fail or are unable to remedy the defect without charge or within a reasonable time, you may also submit a written complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We are sorry for any inconvenience this recall may cause. We are intensely concerned for the safety of our customers and sincerely appreciate your efforts. Thank you for your attention to this important matter.

Sincerely,
Genie Industries, Inc.
